Rajkot, Gujarat

## Summary

---

Results-driven **Frontend Developer** with expertise in **React** and **Next.js**, dedicated to delivering **dynamic** and **high-performance web applications**. Proficient in **JavaScript** and skilled at utilizing **modern frameworks** to optimize **development processes**, I prioritize creating **seamless** and **intuitive user experiences** that enhance **engagement** and drive **user satisfaction**.

## Experience

---

### Web Developer

i-Genesys Technology • Gujarat

02/2026 - Present

- Develop and deliver interactive front-end features — including **game puzzles, task flows, and quiz modules** — across multiple client projects such as **PMI Levi UK, Marlboro, ZYN High Strength, IQOS, and Coin**.
- Build **modular, reusable components** integrated into diverse product experiences, ensuring consistent **performance and user engagement** across all platforms.
- Responsible for **end-to-end deployment** of developed features to the company server, coordinating releases to maintain **build stability** across projects.
- Collaborate with **cross-functional teams** to understand project requirements, translate them into technical solutions, and deliver **high-quality outputs** within timelines.

### Web Developer

Aavishkruti Solutions • Ahmedabad, Gujarat

01/2025 - 02/2026

- Designed and developed scalable front-end applications using **React.js, Zustand** for state management, **React Hook Form** with **Zod validation**, and **Tailwind CSS**, delivering responsive and user-friendly interfaces with consistent design.
- Integrated **RESTful APIs** and collaborated in flow discussions to ensure seamless data handling and maintainable architecture, improving **application performance** and user satisfaction.
- Advocated for **clean, reusable, and scalable code practices**, contributing to improved maintainability, reduced technical debt, and smoother development workflows across the team.
- Collaborated closely with **cross-functional teams** to align business requirements with technical solutions, resulting in an enhanced **user journey** and overall improved product quality.

### Web Developer

Logistic Infotech Pvt. Ltd. • Rajkot, Gujarat

09/2022 - 12/2024

- Designed, developed, and maintained **responsive web applications** using **HTML5, CSS3, JavaScript (ES6+), React.js, and Next.js**, resulting in a **30% increase in user engagement** across desktop and mobile platforms.
- Facilitated **efficient communication** between the development team and key stakeholders by gathering **technical and business requirements**, improving **project delivery timelines by 25%**.
- Managed **project deliverables and resources** using **Agile methodologies**, leading **sprint planning sessions** that resulted in a **15% increase in team productivity** and on-time delivery of **high-quality solutions**.
- Performed comprehensive **code reviews and debugging** using tools such as **ESLint, Chrome DevTools, and Git**, ensuring compliance with **industry standards** and reducing **code-related issues by 40%**.
- Integrated **RESTful APIs** and third-party libraries such as **Axios and React Query** to implement **scalable features**, enhancing **user experience** and achieving a **20% reduction in load times** while following best practices for **security and performance optimization**.

## Skills

---

React.js, Next.js, Redux, RTK Query, HTML5, CSS3, JavaScript (ES6+), RESTful APIs, Axios, React Query, UI Libraries (Material-UI, React-Bootstrap, Antd), Tailwind

## Education

---

### B. Tech (Mechanical Engineering)

Acharya Institute of technology • Bengaluru, Karnataka
